Bitter Counter Attacks of Germans Gain Little—British Airmen Drop Tons of Bombs.

By Associated Press Dispatch.  
The Germans made violent and repeated efforts last night to regain important positions recently wrested from them by the French and British. They gained some small advantages in the Verdun front; otherwise the only result of their attack was to add to the heavy losses which they have sustained in their fierce local offensive operations of late.

The British report three counter attacks against their new lines near Loos. At the second effort the Germans gained slight successes at points, were driven back again, and in the third failed to gain.

Heavy artillery fighting is reported in the Ypres sector where the British, after gaining high ground yesterday, were finally pressed back. The attacks on the French were made at widely separated points. In Belgium the Germans attempted to recapture the ground taken by the French but failed. On the Aisne front the Germans made vigorous assaults but were thrown back.

British aviators yesterday dropped several tons of bombs on military establishments in Belgium. The French brought down two airmen and forced two back of the German lines.

## SEVENTEENTH ANNUAL FAIR NEARING END

Was One of the Most Thoroughly Successful Fairs Ever Held in County—Tip-top Racing Features Final Day.

With a splendid Friday crowd in attendance, the Seventeenth Annual Fayette County Fair is now virtually at an end, with the last afternoon featured by some of the best racing of the entire week.

Thursday's crowd was slightly under the Thursday attendance of last year, but in excess of the numbers anticipated, much of the farm work remaining incomplete this year, and reducing the attendance to what it would have been had the work been well in hand as is usually the case at this time of the year.

Taken as a whole the Fair has been one of the most successful ever held in the county, and has left a splendid impression among those who attended because of the large lines of exhibits and attractions generally.

### THURSDAY'S RACES

It was an enthusiastic crowd that watched Thursday's races at the fair, and most of the heats were exceptionally good and the racing as a whole was above the average.

### LITTLE DEMAND FOR APPOINTMENT

Columbus, O., August 17.—The State Liquor License Commission will announce during the present week the balance of county board appointments. There is less rivalry for these positions now than at any other time in the history of the state, probably because many fear that it is only a question of time when the state will vote out the saloons and the men will lose their positions. The appointment of B. M. Glendening as a member of the State Liquor License Commission will be announced by Governor Cox within a few days. Members of the License Commission in more than 50 counties are due to be appointed this week.

### SOLDIER ON LEAVE MARRIED YESTERDAY

### WAR ON RATS

Washington, D. C., August 17.—The United States has declared war on the rat.

### BAER TAKES HIS SEAT AS "BABY" MEMBER OF REPRESENTATIVES

JOHN M. BAER

John M. Baer of North Dakota, a cartoonist, took his seat in the house of representatives and became the youngest member of that body. He is thirty-one.

When he reached Washington Mr. Baer denied reports that his election was a protest by North Dakota against the war.

"I did not run on an anti-war or anti-conscription platform," he said, "I advocate the food control bill, and I will vote for a tax on excess profits, if given an opportunity. I stood behind the administration. My opponents indulged only in personalities. Although I stood behind the food bill, I think the senate has taken some of the teeth out of it, and if I had the chance I would have voted against it."

Mr. Baer was elected as the candidate of the Nonpartisan league to succeed the late Henry T. Helgesen.

### NOTED INVENTOR IS CLAIMED BY DEATH

Sound Beach, Conn., August 17.—George C. Blickensderfer, vice-president of The Blickensderfer Manufacturing Company, of Stamford, Conn., and inventor of the typewriter bearing his name, died at his home here yesterday.

Blickensderfer built the first model of a new model typewriter while on the farm, and later formed a company that perfected and sold more than a half million machines.

He adapted the machine to the Chinese alphabet as well as other foreign languages. The accomplishment of adapting the machine to the Chinese language so interested the Japanese government that it revised its own language to adapt it to the typewriter keyboard.

Since the war opened Mr. Blickensderfer has invented a number of devices used in the manufacture of munitions and equipment. He was born at Erie, Pa., in 1851.

### COMPANY M BOYS ENJOYING LIFE

Reports from Company M members now quartered in an Ohio camp, state that the men are well and enjoying the camp life, and that everything is moving along smoothly in camp, although some radical rearrangements of the companies and battalions to conform with the new basis adopted for the United States Army were necessary.

It is expected the troops will remain in their present quarters for at least several days, and perhaps a few weeks.

It is understood that many of the new men of Company M will be transferred to other companies, probably not in the Fourth, and their places will be taken by experienced men from other companies.

Major Reil G. Allen, of this city, is in the same camp with the Fourth and being the ranking Major his battalion leads the 2,000 men in drill work, etc.

CONFERENCE URGES IMMEDIATE ACTION

(By American Press)

Chicago, Aug. 17.—Representatives of the councils of defense of thirteen middle-west states, including Ohio, at a conference held here, adopted resolutions urging immediate action by the federal government in fixing a reasonable price for coal and regulating the distribution of fuel by the railroads in order to relieve the crisis which threatens the country. A copy of the resolution was telegraphed to President Wilson.

The conference adjourned to meet again in Chicago next Thursday, when the representatives of the different states will report data to be gathered on the cost of coal production at various mines. The figures on the cost of production of coal in the different states will be compared at the next conference and probably a committee named to go to Washington with the report. The various states will cooperate in every possible way with President Wilson and the federal trade commission in fixing the price of coal and arranging for its distribution.

Federal control of the nation's coal mines, to be effected as speedily as possible, was urged by the majority of the 100 delegates attending the conference.

Charges of alleged coal combines, excessive profits and unfairness were intermingled in appeals for exclusive federal control and federal regulation, with state control of distribution prices.

JAPS ARE FRIENDLY TOWARD HOLLANDERS

The Hague, Netherlands, August 16 (Correspondence Associated Press)—Asked if the relations between Japan and Holland had suffered at all during the war, the Japanese Minister at The Hague, K. Ochiai, declared in an interview: "The relations between the two countries have always

been of a very intimate and friendly nature, and have lost none of their former cordiality during the war.

The question was inspired by all the talk about Japanese ambitions respecting the Netherlands East Indies, and the concern occasionally aroused in Holland by the writings of certain Japanese jingoists.

After assuring the Dutch people that the writings of the publicist Yudo Takedoshi, who advocates the seizure of the rich islands of Java and Sumatra, had found no echo in the Land of the Rising Sun, where his publications indeed were sharply condemned, Japan's diplomatic representative at The Hague concluded by suggesting that experts should be appointed to study on the spot ways and means of improving commercial and shipping connections between Japan and the Netherlands East Indies.

### HORSEMAN LOSES ROLL OF \$500 TO A DUSKY MAIDEN

"John Doe, of New Delphos," Stopped at Dale Alley by Colored Woman, Later Discovers Purse is Gone—Four Arrests Made, Including Columbus Pair.

A horseman giving the name of "John Doe" and said to hail from "New Delphos" was relieved of his pocketbook containing upward of \$500, Thursday night about 10:30 o'clock, at the Dale alley on West Court street, and as a result of the robbery "John" filed affidavits which resulted in the speedy arrest of a quartette of colored people said to be involved in the deal.

According to one story the man was on his way up-town from the Fair grounds and was accosted by a colored woman at the Dale alley. The man, who is white, talked with her a few minutes, it is claimed, while a colored man stood near them, and a short time later he discovered that he had been relieved of a thick roll of bills.

The robbery was reported to the police and after investigation it was learned that the woman in company of a man had departed for Madison Mills, Friday morning the police

went to Madison Mills and located the pair and returned them to this city where they were placed in jail. \$166 was found concealed in the lining of colored man's coat and \$2.50 and a ticket from Madison Mills to Columbus was found in the possession of the woman. The woman's name was Mrs. Eddie Perkins and lives on Naughten street, Columbus. The man answers to the name of Fred Williams.

Two women Pauline Gordon and another unknown colored woman alleged to be connected with the robbery were arrested in Columbus Friday morning and officers were sent to return them to this city where they will be held pending an investigation. It is said that the three woman and the man went to the Union station late Thursday night where the couples separated, two of them going to Columbus and the man and woman going to Madison Mills.

The picture will be shown again tonight, Saturday afternoon and Saturday night.

### ASKING PERMISSION TO USE CABLE CODE

(Associated Press Cable)

Yokohama, Japan, August 15.—Setting forth that the prevention of the use of private codes in the sending of cable messages is harmful to their business, the Yokohama Foreign Trade Association has forwarded a petition to the Washington government for the right to use such codes.

The petition is mainly in the interest of the silk and tea exporters who do a heavy trading with the United States and who as a means of economy have always used a special code for the transmission of quotations.

The United States war regulations permit the use of only well known codes.

## BELIEVES SLACKERS WILL BE SCARCE

By Associated Press Dispatch.

Columbus, Aug. 17. — Registration officials have no fear that men within the registration age will attempt to make false statements respecting their age to escape the draft, according to Hubert J. Turney, judge advocate general of the Ohio National

Guard, who is in charge of the military registration in Ohio next Tuesday.

The heavy penalty fixed by the government for failure to register within the age limits will be the chief means of preventing many taking chances of not being "found out."

While the Ohio vital statistics bureau has not been created long enough to have records of births of men 20 years of age or over, there will be many sources of information open to the officials. Among these will be school records, insurance records, voting records, and information from relatives, friends and acquaintances, so that the avenues of escape will be so closely drawn that the man who dares take the chance of a false affidavit respecting his age will be flirting with a prison sentence as well as almost certain army service.

There will be no excuse for not registering June 5 for the men sub-

ject to the selective draft. Every man, even though he may have lost both legs, an arm, an eye, or otherwise incapacitated for service, must register along with the physically fit. The government wants the statistics. The matter of exemption will come up later.

## CLEVELAND WILL FURNISH 3750 MEN

Cleveland, O., August 17.—According to an estimate of the Board of Elections, Cleveland will furnish 3,750 men to the first selective draft for the army. It is estimated that 407,000 will register in Ohio, of whom 33,913 will answer the first call. Forty-five thousand will register in Cleveland, 3,750 answering the first call. In Cuyahoga county, outside of Cleveland, 7,500 will register and 525 answer the first call.

### THE "SOLDIER" IS THE LATEST PUBLICATION

By Associated Press Dispatch.

Cleveland, O., August 17.—Cleveland has another newspaper. It is the Cleveland "Soldier," printed by the mayor's advisory war committee for Cleveland boys abroad. It is part of the committee's plan for keeping in touch with the boys abroad. It will be sent only to soldiers who are abroad. While the men are at training camps in this country they will receive daily newspapers.

The first number of the "Soldier" has just been issued. It will be published weekly, four pages, three columns to a page.

The first number contains an article by A. J. Hirstius, clerk of the Cuyahoga county board of elections, telling the men how they may vote in their home elections this fall, even though they are in a foreign land.

There is an article on the operation of the selective draft boards; a story of baseball doings, the advance in milk prices, yarns about Johnny Kilbane, tennis, polo, heat wave, Red Cross and a new hotel.

### TO TRAIN PUPILS

By Associated Press Dispatch.

Cleveland, O., August 17.—If it is

possible to find from the government what course of training is most desirable, Cleveland technical high schools will train pupils for war service, according to Dr. F. E. Paulding, public school superintendent-elect.

### MORE ARTILLERY FOR DIVISIONS

By Associated Press Dispatch.

Columbus, O., August 17.—Word from Washington that hereafter army divisions will consist each of two brigades containing four regiments and that the ratio of artillery strength is to be increased has given Ohio officers another worry. According to this ruling Ohio will have upwards of 6,000 more troops than are needed to make a division, as the division unit strength will be reduced from 29,000 to 19,000.

Ohio officers do not know what disposition will be made of the surplus Ohio troops, but the supposition is that they will be sent to Camp Sheridan at Montgomery, Alabama with the regular Ohio division and either be assigned with other troops to make up a new division or be formed into reserve battalions to fill up gaps in the original division unit. There is a possibility too that draft soldiers may be added in sufficient number to make a new or second division for Ohio.

### LANSING'S TASK TO SOUND ALLIES

Washington, Aug. 17.—President Wilson has received from Secretary Lansing the pope's peace message.

Important conferences which must precede a reply will begin shortly, but necessarily some time must elapse before the response goes forward.

A translation of the message, made public by the state department, does not differ materially from the unofficial version cabled from Europe.

While there already have been many informal conferences among officials and diplomats regarding the pope's proposals, it may be stated on Secretary Lansing's authority that the secretary so far has not discussed the subject with the president and also has refrained from communicating his views regarding the character of the reply which should be made to any of the many diplomatic callers he has had since the first press notice of the dispatch of the pope's communication.

Among other officials and the diplomats, however, there is no such reticence. While battles have increased in number and waxed in intensity and the slaughter has continued in the most distressful manner, it is pointed out, there has been no such chance in general war conditions as would warrant a different reception for peace proposals from any quarter than would have been accorded to those made a year ago. Attention is directed to the fact that any such changes as may have occurred in the military situation have made it distinctly to the advantage to the central powers to endeavor to make peace now.

The Germans, in possession of most of Belgium and a large part of France, were quite willing a year ago to make peace. But with the Russians in possession of some of their best eastern provinces, the Austrian government was not of like mind. Now it is pointed out by the entente diplomats, as a result of the collapse of the Russian offensive and the clearing of Galicia of Russian troops, the Austrian government also is willing and anxious for peace, as are the Germans in the knowledge that the tide has turned against them in the west and that next year probably will find them in possession of little or no French and Belgian territory.

It is admitted by these diplomats that it is inconceivable that the Vatican should have been influenced by any of these military considerations, but it is insisted that they must be taken into account by the foreign office of the entente powers when they pass upon the pope's appeal.

In addition to consulting with President Wilson, Secretary Lansing will begin now to ascertain the views of the entente governments regarding the pope's message. Although no party to a formal alliance, the United States having joined fortunes with the entente allies in the supreme struggle for democratic ideals, the necessity for propriety of consulting with them as to any measures looking to peace is obvious. Even with the aid of cables, such exchanges are tedious and time-consuming.

### LIGHTNING KILLS TWO

Delaware, O., Aug. 17.—Two men were killed and two others were injured when lightning struck a load of hay under which they had taken refuge during an electric storm on the Emerson farm, six miles east of here. A negro, who was under the wagon when the lightning struck, escaped injury. The dead: William Kline, twenty-four, and Walter Evans, nineteen. The injured: Smith Clark, forty, and John Kline, fifty.

The men were engaged in making hay and had driven the wagon alongside a hay stack when the storm broke. The load on the wagon and the stack were consumed by fire started by the lightning. The negro, known to his fellow workmen as Sam, rescued the bodies of the dead and injured from the fire.

### IMPORTANT GAINS

London, Aug. 17.—Further advances have been made by the Anglo-French armies in Belgium. The village of Langemark and other important positions have been taken, with more than 1,800 prisoners.

The latest blow in the Ypres area was on a front of nine miles and only on the extreme right were the allied forces unable to make progress. The Germans resisted stubbornly, suffering heavy losses.

Before the fighting between Lens and Loos had died out, the French and British moved forward north of the Ypres-Menin road. On the left the French occupied the ground between the Yser canal and Martjevaart and then drove the Germans from the important bridgehead of Dreirachten.

Field Marshal Haig's men carried the center and right of the attacking line. In the center the British early gained their first objective and then established themselves in Langemark. Continuing their attack, they advanced a half mile beyond the village, gaining a trench system.

On the right flank the German resistance was most desperate. Early in the day the British drove the Germans back, but numerous counter attacks enabled the Germans to regain the lost ground.

In the Lens sector the Canadians made further progress east of Loos and north of Lens. German prisoners to the number of nearly 900 were taken in the fighting here Wednesday and Thursday, bringing the allied total for the two days to 2,700. In Flanders the British also captured some guns from the Germans.

Although Berlin says the allied attack in Flanders has been forced back with heavy losses, it admits French and British gains at Dreirachten on the Yser canal and near Langemark. These are the places where London officially says the French and British advanced.

On the Sereth river in southwestern Moldavia, the Roumanians and Russians have been driven across the river by the Austro-Germans. Northwest of Fokshani the Roumanians and Russians have made numerous attacks in efforts to capture Straceni and Pantzin. In the Trotus valley, western Moldavia, the Austro-German advance apparently continues. Berlin says that the forces of Field Marshal Von Mackensen have captured more than 3,500 prisoners, 16 guns and more than 50 machine guns in the recent fighting.

More people every day are finding Herald want adds superior.

### ONE OUT OF SEVEN MARRIAGES FAILURE

By Associated Press Dispatch.

Columbus, O., August 17.—One out of every seven marriages in the state of Ohio ends "on the rocks" as he saying goes, meaning the divorce courts according to figures compiled in the office of secretary of state Fulton. In the larger cities the percentage is higher but the average for the state as a whole is brought down by the domestic felicity of the country districts.

During the year ending June 30, 1917, there were 19,472 divorce suits brought or pending in the state. A total of 8,492 divorces were granted and 3,558 refused, leaving 7,442 pending at the close of the year.

In the year before there were 17,833 brought or pending. The number allowed was 7,622 and refused 3,443 leaving 6,618 pending. The chief causes for divorces during these two years, the records show, were absence, neglect and cruelty.

There was a material increase in the number of marriages during the last year. The total number was 5,631 as compared with 48,250 the year previous. One thousand, seven hundred and eighty-four negro couples were married in Ohio this year.

### CHARTER FRAMERS WILL MEET SOON

The fifteen men recently elected to frame a charter for Washington will meet in the very near future and perfect a working organization and then get busy without delay in framing a charter which they believe will be suitable to the needs of Washington, and which is expected to take the place of the present cumbersome form of government.

In order to get the best for Washington that can be obtained, the commissioners will obtain charters of a

large number of cities now governed by the charter form, and will then pick the most approved portions of the different charters, it is expected, so that the new charter offered to Washington citizens will represent the highest type of charter form of government.

It is expected that the work of the charter framers will be completed within a few weeks, after which an election will be called for a vote on the charter itself.

Great Britain will be finished in two months, according to a German admiral. This is a generous extension. The time was up June 1.—Chicago Tribune.

### TREAT TO HEAD GUARD DIVISION

Washington, Aug. 17.—Major General Charles G. Treat was appointed as major general of the Ohio national guard division. This is the assignment for which Adjutant General George H. Wood was recommended by Governor Cox.

A statement given out by the bureau of public information says concerning General Treat: He was born in Maine and appointed from Wisconsin to West Point, from which he was graduated in 1882. He served as adjutant general, light artillery brigade, at Santiago, and later as assistant adjutant general on the staff of Major General W. Ludlow, military governor. He was made a major in the artillery corps in 1906 and lieutenant colonel in 1910, and was recently raised to brigadier general and assigned to the command of the First Hawaiian brigade.

General Treat's name is now pending before the senate, awaiting confirmation for appointment as major general. He is on his way from Honolulu to take charge of the Ohio division. For four years he was commandant at West Point, which in itself is a guarantee of his fitness as an officer. He has an impressive personality and fine appearance.

Under General Treat are appointed the following staff: Lieutenant Colonel D. T. Merrill, chief of staff; Brigadier General W. V. McMaken, Seventy-second infantry brigade; Brigadier General J. C. Speaks, Seventy-third infantry brigade; Brigadier General C. N. Zimmerman, Sixty-second depot brigade; Brigadier General W. R. Smith, Sixty-second field artillery brigade.

The Ohio division is officially designated as the Thirty-seventh national guard division.

## WHELPLEY BAND HAS BUSY WEEK

Patrons of the Fayette County Fair have had another opportunity of enjoying the excellent music furnished by the WHELPLEY BAND of this city, and that they have been highly pleased with the music has been attested by the repeated encores given the band.

The musical organization is one of which the city is justly proud, and is now stronger than at any time in recent years, with from 20 to 25 pieces, including a number of soloists whose work never fails to please.

The selections rendered at the fair have run all the way from very difficult classics to the latest popular pieces, and as a result has pleased those of all tastes.

At the New Holland Picnic recently the band made such a hit that it was promptly engaged for a return visit to Kirkwood Park Saturday of this week, when the Grange picnic is to be held. This picnic is free to everyone and will attract a large crowd from Eastern Fayette and Western Pickaway.

## RED CROSS BATTLES AGAINST MALARIA

The War Council of the American Red Cross has appropriated \$10,000 to free the Columbia, S. C., cantonment and its immediate vicinity from malaria.

This sanitary undertaking for the benefit of the men of the new army who are ordered to Columbia for their training, illustrates what the Red Cross is arranging to do at other cantonments the country over—even in the vicinity of camps where malaria is not prevalent. At Columbia, the Red Cross representatives are working in close co-operation with the South Carolina Board of Health and with the Public Health Service. Dr. French Simpson, the Public Health Service officer detailed to supervise sanitation in that district, has been appointed director of the Red Cross Sanitary Unit. Other sanitary units are already organized or in process of organization for work at other points.

## FAYETTE YOUTHS AHEAD OF OTHERS

Of the 216 men called for examination for military service, in Fayette county, about one dozen had enlisted in some branch of the service, and of the remaining 200 about 50 were thrown out as physically unfit, 98 filed claims for exemption, and more than 50, realizing that they had little claim for exemption, did not file but have evidence of their intention of being ready to go when called.

This percentage of those not claiming exemption is much higher than in many of the surrounding counties, where nearly every one filed claims, even though the claims were of the poorest kind. In Ross county only three out of the first 172 called failed to file exemption claims, and in Highland county all but five filed claims.

In Ross county the call for an additional 100 men for examination was issued this week.

## CORN CANNING TO BEGIN NEXT WEEK

Everything is being placed in readiness at the Fayette Canning Company's plant on South Hinde street for the corn canning season which will begin next week and last until sometime next month.

The plant has undergone improvements and by the time the season opens it will be ready for the biggest pack in its history—about 2,500,000 cans, or 100,000 cases.

At the present time the big supply of cans is arriving and being unloaded in the waterrooms of the plant. Some of the cans are slow about coming in, but the entire supply is now enroute from the can factory.

## ELEPHANT MAN OF CIRCUS TELLS STORY

"It's a good thing they had a \$12,000,000 peanut crop in Texas this year," said the boss "bull" man of Sells-Floto Circus, coming to Washington Court House to exhibit Tuesday, August 21, "for these blamed elephants will eat just about that amount of goobers before the long haul back to winter quarters. Every time that ninth 'bull' over there hears a whistle he thinks it's a peanut stand. When the 5 o'clock whistles go I have to plead with him to keep him from walkin' right away with the menagerie top. And that after he's eaten all the peanuts that several thousand people have fed him before and after the matinee."

"Doesn't it slow up their performance—eating all those peanuts?" the bull man was asked. "Eatin' never slowed any of these three herds, especially eatin' goobers. The young ones and the old ones are alike when it comes to the peanuts. Sack after sack as the crowds pour by and never a bull that has enough. There was once an elephant that lived in captivity to the fairly ripe old age of 130. They say the sickroom was stacked with gunny sacks of peanuts during the last illness and that the poor old pachyderm wrapped his trunk around three sacks as he died."

"You take those 'cats'—the lions, tigers, leopards, panthers, jaguars—the gorillas, the baboons, the hippo, those freak beasts in that line of cages across the tent and even the camels, the bison, the gru and all of 'em—well, eatin' makes 'em loggy, but the 'bulls' can eat their weights in goobers and dance like Pavlova. Watch Lucia Zora and the other women trainers give 'em the word to do 'The Death of the Swan' dance in the rings today. They'll be chockful o' those peanuts, but they will float to the music—simply float."
